

Cybersafety

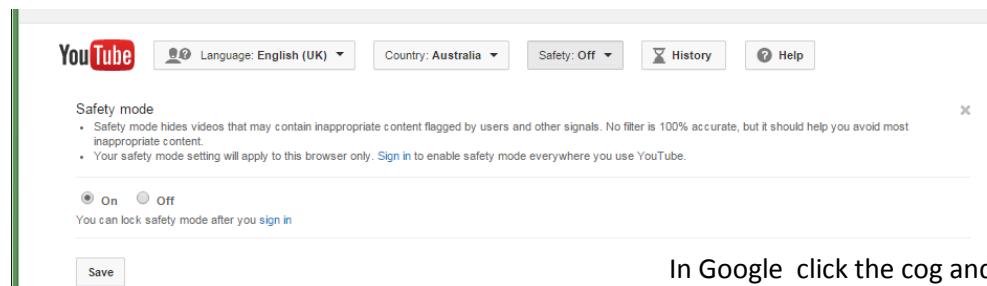

Many thanks to all those parents who attended last week's Cybersafety evening. Greg provided us with a very entertaining and useful session pertaining to keeping our children safe as they navigate the online world.

Thanks for the feedback, we hope to secure further visits in the future. Sarah Carroll

Below are links to many of the resources mentioned;

Search safety settings can be accessed at the bottom of any page.

In Google click the cog and click "search settings"

- Phones, iPads and electronic devices need sleep too and should not be in bedrooms over night—have a family charging station elsewhere
- Turn the WiFi off at night if you think your child may be browsing or connecting during the night.

If you post photos online from any device with your device camera location settings turned on then anyone who can see that image can also see where you were when you took it. This includes pasting information into Google Maps to locate exactly where you were.

Search for geotagging to learn more. [Click Here](#)

Before you...

THINK!

- T** = Is it True?
- H** = Is it Helpful?
- I** = Is it Inspiring?
- N** = Is it Necessary?
- K** = Is it Kind?

Take Home Message;

Everyone you meet online you must have met face to face in real life.

For information about the pros cons and what to look out for in these apps and forums click the appropriate image;

I really hope that all these resource will help you to share the online world with your children in a safe and responsible way.

We are proud to be an e Smart school.
