| <b>Enter your reflective comments</b> | <p>In line with the FISO Initiative "Building Practice Excellence" the Leadership Team have led the development of teacher capacity to incorporate student agency into the teaching and learning framework with a focus on the quality of feedback measured by ATSS and Peer Observation sessions in 2018. In the ATSS, effective teaching practice for Cognitive Engagement with Differentiated Learning Challenge, has gone up from 6.8 to 14.6%, Effective Classroom Behaviour from 19.8 up to 53.4, Effective Teaching Time up from 6.3 to 13.1 percentile and Stimulated Learning from 7.3 to 17.4 percentile. Developing Student Agency across the school is still in its infancy, with teacher planners providing evidence of students having more input to the direction of their learning. Staff have trialled various methods of feedback in line with Student Agency both in and out of their classrooms with varying degrees of success. The new Pedagogical Plan and Instructional Model have enabled staff to understand what is required in terms of how the programs should be delivered. As a consequence, this has led to a common understanding of the school direction amongst staff. The roles and responsibilities within the School Leadership Team (SLT) and School Improvement Team (SIT) have been documented and clarified within the Leadership Structure. The SIT team members have driven action plans in Numeracy/Humanities, Literacy and Wellbeing across the school, with routine weekly meetings where actions have been implemented. The connections to the AIP through SIT members improved effectiveness and spread the working load across staff. Inquiry Learning now has a CEPS</p> |

|---|---|
|   | Continuum of Skills to teach, which will ensure a scaffolded learning approach. Staff have access to the scope and sequence documents of English, Maths and Inquiry on the school network drive and use these for their planning in year level learning teams. This has led to more directed teaching across the school as witnessed in walkthroughs.   |
| <b>Considerations for 2020</b>          | We will be investigating the way in which we teach writing to our students in 2019. We are currently trending down with writing growth and consequently we will be looking at our program particularly at the strategies teachers are using and We will be looking at how the Positive Behaviour model is being implemented across the school. We currently do not have the important background on this program to run it effectively. Anthony King, who is the co-ordinator across the Region in Positive school behaviour in this area, is coming in to professionally develop staff and making sure we are getting the most out of the program. |

| <b>Goal 1</b>                                | To achieve an improved learning growth in all areas of the curriculum  |
| <b>12 Month Target 1.1</b>                   | Completed  |
| <b>12 Month Target 1.2</b>                   | Seek PD on analysing data  |
| <b>12 Month Target 1.3</b>                   | Establish coaching opportunities for level leaders   |
| <b>12 Month Target 1.4</b>                   | Triangulation of data is collected for every child to determine the teaching and learning plan in each KLA   |
| <b>12 Month Target 1.5</b>                   | Establish accountability tables for teachers to seek PDP support and engage with the feedback cycle as both participant and reviewer.  |
| <b>KIS 1</b><br>Building practice excellence | Develop and document an agreed strategy to ensure collaborative teamwork drives high, consistent performance with individual and collective accountability for improving student learning outcomes.  |
| <b>Actions</b>                               | <p>To build teacher capacity in English through professional development and teacher collaboration by the end of 2019.</p> <ol style="list-style-type: none"> <li>1.
