

CHELTENHAM EAST PRIMARY SCHOOL

18/03/2020

SELF-ISOLATION FROM SCHOOL

You will appreciate that during this time with unprecedented circumstances, logistical considerations are determining factors in the actions of the school.

Currently, the Department of Education Victoria, has not closed down our school, therefore our students are expected to be at school. Teachers are delivering the fully planned curriculum at school. Should families choose to remain at home, you are encouraged to engage with Literacy and Numeracy activities which have relevance in daily routines experienced at home. For your interest, this is a comprehensive educational online resource available for your viewing: <http://www.amazingeducationalresources.com/>

Until the school receives a directive to close, children will receive their full educational programs on site. If the closure of our school occurs, it will be essential that learning continuity is maintained for our students. Our staff are working tirelessly through a range of options to support families should this event occur, by providing suitable learning opportunities that can be completed away from the school setting. In the event this occurs, families will receive information regarding the program for the year level of their child, via Dojo. This includes but is not limited to:

- Mathematics which our school subscribes to,
- A soon to be released DET online website, *Learning from Home*, that will be available in the event of a government school closure.
- Pre-prepared worksheets or workbooks that can be provided to students in hardcopy.
- For the latest advice and information, including FAQs, please follow the links included here:

As always, families who are engaged with teachers and Individual Learning Plans for their children are advised to review past and present goals and continue to provide experiences which consolidate learning, via the supports which are documented in the student's plan.
